

HOW IS YOUR COVERAGE OF THE POTENTIAL MARKET FOR YOUR PRODUCTS?

Integeo's Market Analyser is a unique set of tools developed to assist sales and marketing managers to keep abreast of the changing demographics driving their potential markets.

It uses your own customer and store data to look at your current market coverage.

Australian Bureau of Statistics Demographic layers are provided to search areas of high population density for your particular market segment and highlight potential areas of new opportunity.

WHAT DO I GET?

- Integeo's Map Intelligence for QlikView
- Access to our map servers
- Access to our wide range of online ABS Demographic map layers
- Provision of sample file and template
- Services can be provided to get you started

HOW IS IT DELIVERED?

In a QlikView format with sample data and templates, enabling a quick start for results. The analyser uses your internal map server to map your data and bring in Australian Bureau of Statistics demographic data, all provided in a browser format so no desktop installation. The tool is completely interactive.

WHAT DOES IT COST?

Cost varies with number of users and level of functions. Minimal entry price options for small sites, prices available on request,
