

# MI Employment Services Market Analyser

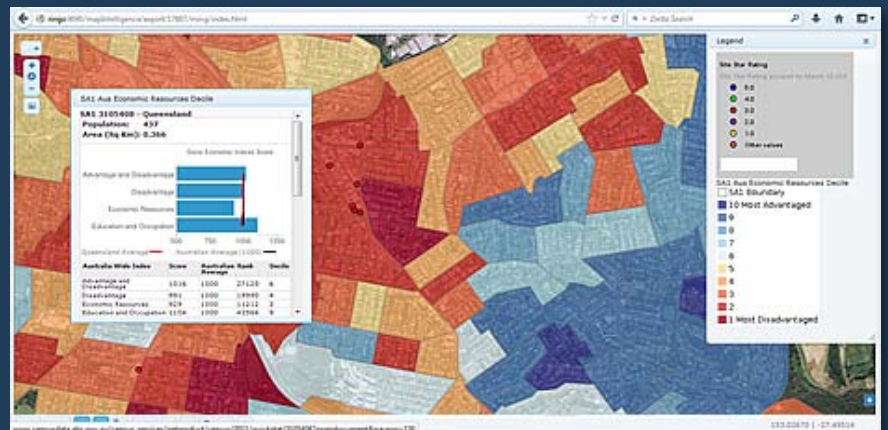

Theme ESA boundary layer by business data indicators like Average JSA Star Rating

Filter to LMR - view JSA Sites by Star Rating, Centrelink Offices by Type of Site and ESA Boundaries, filter as desired and include charts

Zoom in to local level, turn on Satellite view, bring in relevant background data such as ABS SEIFA, UE Rates with context sensitive popup

## BRING TOGETHER KEY EMPLOYMENT SERVICE MARKET INDICATORS WITH YOUR OWN DATA

Integeo's Employment Services Market Analyser is a unique set of tools developed to assist providers in the market to keep abreast of changing demographics and provider performance indicators driving the market potential.

It uses your own network performance and internal data to look at your current market performance.

DEEWR Employment Service Area boundaries, Centrelink Office Locations and all employment provider locations with star rating are included as standard indicators.

ABS Demographic and SEIFA data is also available at all geographic levels to highlight potential areas of need.
