

## MI SEIFA 2011 Socio-Economic Indexes for Areas

Use SEIFA themed maps linked to your own data at all ABS boundary levels

### Do you need to review your service provision against Socio-Economic Indicators?

Integeo's MI SEIFA 2011 can assist you to do this.

Integeo provides a unique set of tools and services to assist Government planners best target their service provision and distribution of resources to those areas most in need.

You can use your own data on customers and service provision locations to evaluate your current service delivery mechanism locations against areas of low socio-economic standing.

Australian Bureau of Statistics SEIFA data is provided as map layers enabling you to either use these with Integeo software or other OGC compliant map interfaces.

#### WHAT DO I GET?

- Access to Integeo's hosted SEIFA layers
- Access to our hosted map server or purchase and install in your environment
- Access to our wide range of online ABS Demographic map layers
- Provision of sample file and template
- Services can be provided to get you started

#### HOW IS IT DELIVERED?

In an Excel format with sample data and templates, enabling a quick start for results. The service uses our hosted map server to map your data and bring in Australian Bureau of Statistics demographic data, all provided in a browser format so no map installation. The tool is completely interactive.

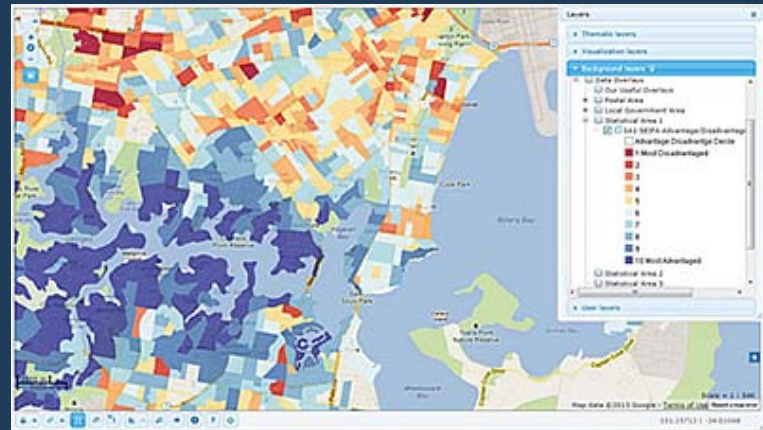

#### WHAT DOES IT COST?

Cost varies with number of users and level of functions. Minimal entry price options for small sites, prices available on request.
